

Enrol students faster with Adobe Sign.

Use flexible digital tools to maximise efficiency and delight your students.

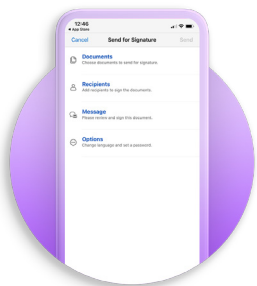

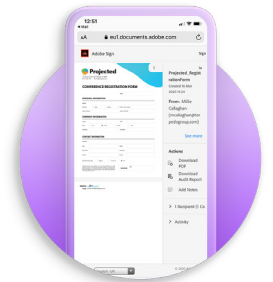

Increase enrolment efficiency with e-signatures.

Transform your processes with streamlined e-signature workflows. With the intuitive e-signature tools in Adobe Sign you can speed up application and enrolment processes by up to 90%, maximising efficiency and freeing up time for your staff to spend more time with students.

New contracts for new learners in just 30 seconds.

Lifetime Training found that creating the lengthy contracts for commercial training courses for apprentices was increasingly time-intensive. By switching to Adobe Sign they reduced contract completion time by 80% and improved contract accuracy to over 95%. New contracts can now be prepared in just 30 seconds, providing a more efficient service to learners and employers.

Accelerate digital services for students.

Adobe Sign simplifies the enrolment process for students and administrators, automates document processes, reduces errors and admin tasks – freeing up staff to spend more time on the work that matters. Read our 'Adobe Sign for higher education' report to discover how higher education institutions have streamlined their processes and experienced multiple benefits by going digital with Adobe Sign.

Achieve big savings by going digital.

A recent study, conducted by Forrester Consulting, found that over three years, Adobe Sign delivers a ROI of 420%. From dramatically reducing your need for paper, to streamlining processes with digital forms, saving users one and a half hours per transaction, there are plenty of benefits to discover.
